EDUCATION

Birla Institute of Technology, Mesra

Bachelor of Engineering, CSE

- IEEE Society, Technical Team Member
- FineArts Society, First Year Coordinator

Ranchi, IND

Aug. 2024 – Sept 2028

Indian Institute of Technology, Kharagpur

Summer of Quant, Elementary and Advanced

- Cleared the SOQ Elementary with distinction, meeting the prerequisites for the SOQ Advanced
- Cleared the SOQ Advanced with 9.5 CGPA

Kharagpur, IND

JUL 2024 – SEPT 2024

EXPERIENCE

CTO and Quantitative Researcher

Teenance Group

- Developing ultra-high frequency and super-low frequency trading systems for profit maximization.
- Secured funding in BIT Mesra's flagship event- BIT NISHAN.
- Trading in volatile markets like Crypto Futures, Options, and Forex.

SEPT 2024 – Present

BITM, Ranchi

PROJECTS

Comprehensive Backtesting of Advanced Trading Algorithms

- Investigated algorithmic trading strategies for Apple stock using Python and backtesting.
- Implemented GitHub OAuth for trading data analysis.
- Used Moving Average, MACD, and RSI indicators on AAPL stock data (2021–2024).
- Evaluated trading performance using return, volatility, and Sharpe Ratio.
- Skills: Python, SKLearn, Matplotlib, Pandas, Numpy.

July 2024

Advanced Decision Tree Classification for Meteorological Forecasting

- Built Decision Tree Classifier to forecast weather conditions.
- Ensured dataset integrity with 1,281 meteorological samples.
- Achieved high test accuracy with precision, recall, and F1-score.
- Skills: Python, Numpy, Pandas, Decision Trees.

June 2024

Advanced Credit Card Fraud Detection Through ML

- Developed a fraud detection system using Decision Tree, Random Forest, AdaBoost, and XGBoost.
- Executed data preprocessing, exploratory data analysis, and feature engineering.
- Skills: Machine Learning, Data Analysis, AdaBoost, XGBoost, Python.

June 2024

LICENSES & CERTIFICATIONS

Algorithms-I and Algorithms-II, Princeton University

Issued Mar 2025

- Skills: Algorithms, Data Structures.

Programming in Python, University of Leeds

Issued Feb 2025

- Skills: Python, Programming, Algorithms.

Options-101, Akuna Capital

Issued Sep 2024

- Skills: Quantitative Research, Algorithmic Trading.

Supervised Machine Learning: Regression and Classification, DeepLearning.AI

Issued Apr 2024

- Skills: Machine Learning, Regression, Classification.
